★ The viewership buys **subscription** from the platform

EXCEPT

★ They pay for **view time**, not for a month of usage

Introducing TON payment channels

- We can handle super micro payments using TON payment channels
- The viewers only pay for the time they have actually spent on the platform consuming videos and streams
- We pay a percentage of the subscription income from each content, to their creators. We are fair!
- The content creators get paid **instantly** as their content is being enjoyed by their viewers
- The user can cancel their subscription at any time and get the rest of their money back
- All of this is possible **only** thanks to TON payment channels

Consumer

♥ I only pay for what I watch

♥ I am directly supporting
my favorite streamer

Creator

♥ I get paid instantly

♥ I can directly see the effect
of my work

On top of all of this, crypto payment is borderless

Anyone can enjoy the content, no matter where they are from or living

Anyone can be a content creator, no matter where they are from or living

TONTube creates a big family of people who work together to create a bigger and better community.

They share the ups and downs. Their actions directly influence each other. They are a **family!**

Our MVP

A blue, irregular, blob-like shape containing the text "TONTube" in a bold, black, sans-serif font, tilted at an angle.

TONTube

Our minimum valuable product is like a single channel TV.

You can buy a subscription. 0.01 TON will buy you 30 seconds of view time.

You can see how much view time you have left in real time.

The design is bad! The stream is repeating an 8 minute video! But it works! Enjoy!!
